Sedflume stations coordinates.xlsx

Actually you raise a good point, we should discuss the SEDFLUME QAPP at the September 25 meeting.
We will add it to the agenda.
The attached excel file contains the sedflume station coordinates (with a note for the coordinate system).
Anything else?

1-No and 2-no.

On 1-Jason Magalen (from SEA Engineering) will not be attending the Sept 25 meeting, so we should have an "exclusive" sedflume webinar with him. And 2- is delayed, Tierra has to submit an updated NBSA deliverables schedule next week.

Eugenia:

Thanks - are we planning to discuss the Sedflume QAPP on September 25?

Did you receive the NBSA PFD last month?

Thanks

Eugenia:

Can we get a word version of the QAPP?

Thanks

Rob/Bill,

Attached you will find the Draft QAPP to perform SEDFLUME and consolidation tests in Newark Bay for your review. We are planning to mobilize on October 14, therefore comments are due to me by Monday October 1.

Please let us know if you would like to have a conference call to discuss prior to submitting your comments. Let us know as well if your modelers are interested in watching how the tests are done, so we can coordinate that.

Thank you,

eugenia
